Re: Enhancement to Essent Online MI Ordering
Effective: July 22, 2015

Essent is pleased to announce a new enhancement to our Essent Online MI Ordering experience. This improvement will make your MI application submission process even smoother.

Highlights of What's Changed

→ *Simplified Data Entry*

Delegated Submission Flow:

- We have updated our delegated submission flow to only display conditional fields, when applicable. The result is a cleaner look and feel to your mortgage insurance application. For example, the Purchase Price field will only display if you select "Purchase" or "Construction-to-Perm – Purchase" as the Loan Purpose.

We are confident that you will find this Essent Online MI Ordering enhancement to be beneficial. We value your feedback and pledge to continue making changes to improve your Essent Online MI Ordering experience.

If you have any questions about the Essent Online MI Ordering system, please contact your Essent Account Manager. You can also call EssentCONNECTSM at (855) 282-1483 or email us at essentconnect@essent.us.
